

Eastern New York Chapter  
of the  
**ASSOCIATION FOR  
BRIDGE CONSTRUCTION AND DESIGN, Inc.**

**MAY DINNER MEETING**

Date/Time: **Thursday, May 17, 2007**

6:00 pm Cash Bar  
6:45 pm Dinner  
7:45 pm Program

Location: **Turf Tavern**  
40 Mohawk Avenue, Scotia, NY (at the NE Corner of Routes 5 & 50)

Topic/Speaker: **Weigh-In-Motion (WIM) Traffic Data Systems**  
**Bala Sivakumar, PE, Chief Engineer, Lichtenstein Consulting Engineers, Inc**  
Traffic load data are key to the design and evaluation of bridges. WIM systems continuously collect unbiased data on truck weight, speed, time, axle weight, configuration and volume. WIM systems can provide valuable traffic data for better planning and management of operations, maintenance and new design activities. WIM systems can also help to identify the likelihood of illegally overloaded trucks crossing major bridges that may be causing premature deterioration of various structural elements.

**This program has been accredited for 1.0 PDH by the Practicing Institute of Engineering, Inc**

Dinner Choices: **New York Sirloin**  
**Scallops Au Gratin**  
**Grilled Chicken & Shrimp Scampi**
