

**Eastern New York Chapter
American Concrete Institute
Tour of Dimension Fabricators New Facility
For: ACI/ABCD/ASCE SG/ASHE/ASE
Wednesday October 20, 2010**

Location: Dimension Fabricators, 2000 Seventh Street, Glenville, NY

Dimension Fabricators concluded their 26th year in grand fashion - acquiring the land and buildings of the former Super Steel Locomotive Assembly Facility in Glenville. With nearly four acres under roof, three thousand feet of rail sidings, and eleven overhead cranes with up to 150 tons of lifting capacity, all on 21 acres, Dimension is now equipped to handle almost any steel-related activity.

Founded in 1984, the company fabricates concrete reinforcing steel products including rebar, continuous steel spirals, and specialty built steel cages that allow concrete to be used in complex civil engineering applications from bridges and roadways to tunnels and large construction projects. They have provided materials for the Q Bridge I-95 widening project in New Haven, the New Jersey Turnpike, the US Coast Guard Headquarters in Washington DC, the Boston Central Artery project and many others.

Time: 7:30 AM - Continental Breakfast – No charge
7:45 AM – Tour Begins
9:00 AM - Adjournment

Notes: There is ample parking available at their site. Bring along your own Personal Protection Equipment (PPE) if you have it, if not some is available at the plant. All participants will need to sign a non-disclosure agreement prior to the tour. IF YOU ARE EMPLOYED BY A COMPANY WHO COMPETES WITH DIMENSION FABRICATORS, PLEASE DO NOT SIGN UP FOR THE TOUR!

Place: Dimension Fabricators is located at 2000 Seventh Street, Glenville, NY 12302. Directions to the plant are: NYS Thruway to Exit 26, straight thru toll booths. Follow signs to Rte 5/Scotia. East (right) on Route 5 for one half mile to a left into Glenville Business and Technology Park. Proceed east to the very large white metal building with green trim, one quarter mile on the left. **Phone 374-1936**

Reservations: They will be accepted through October 19, 2010 by emailing enyaci@aol.com or by calling Ron Vaughn @ 518/283-8637

Upcoming ACI Meetings:

10/5-7/10 – NESMEA Conference in Saratoga Springs, NY
