Nondestructive Testing (ASNT)

Bring You a Technical Discussion on

**Application of Automated Ultrasonic Testing
For Bridge Fabrication**

Dr. Glenn A. Washer, PE; Director, NDE Validation Center, FHWA

The presentation will discuss the application of Automated Ultrasonic Testing (AUT) for the fabrication inspection of steel bridges. Potential problems with implementing this technology will be provided, as well as an overview of the existing FHWA research efforts to compare the results of AUT with UT and RT. Issues related to modifying existing welding codes to allow for AUT as a part of normal fabrication inspection will be discussed.

Tuesday, December 9, 2003

The Holiday-Inn Turf Hotel
205 Wolf Road
Albany, New York 12205
